WORLD TIME WATCH

- ◆ Make sure that the watch is correctly set to the current time.

1. Among the city names printed on the rotating indicator ring, find the city name representing the time zone which you are in.

[EXAMPLE]

TOKYO, 9:00AM

Find the city name **TOKYO** on the rotating indicator ring.

Rotating indicator ring

2. Turn the Bezel until the city name becomes aligned with the number representing the current hour of the inner 24-hour indicator.

Rotate the Bezel to align **TOKYO** with the number "9" of the inner 24-hour indicator.

24-hour indicator

3. The other numbers of the 24-hour indicator respectively show the current hour in the city with which it is aligned.

Check the number of the 24-hour indicator with which each city name is aligned.

CHICAGO, aligned with "18", is 6:00 PM.

DUBAI, aligned with "4", is 4:00 AM.

Repeat the above procedures every time you check the current times of the other cities.
